

GUNNAR T1

Key Features

- Embossing with 2 different diameter balls
- Scoring with 4 scoring-wheels with different diameters and scoring profiles for easy to order box creation
- depth of embossment or scoring can be adjusted by 1/10 mm
- easy tool head change with one tool (included) in less than one minute
- several templates for different box types included, incl. protection corner, stand back ...
- constant growing template gallery
- easy operation with GUNNAR software SPT32 (same as for mat board cutting): click on a template, enter 3 dimensions, then cut
- Simple Tool administrator software, ready to be extended in the future

GUNNAR TOOLHEAD NR. 1

GUNNAR has successfully presented a new tool which is the first in a row still to come: the GUNNAR T1. Elegant embossings to decorate mats or scoring to produce boxes to order are the most impressive products that you can expect from the world premiere.

ADDITIONAL OPTIONS FOR YOUR GUNNAR CMC!

The days of looking for a suitable box are over! Almost certainly you will have had the problem of finding a suitable box, perhaps for a great picture with an expensive frame. Or you simply wanted to store something safely. Precisely for this purpose GUNNAR now offers the perfect solution as a world premiere: the new tool head GUNNAR T-1 for all current GUNNAR CMC's is capable of turning your mount cutter into a packaging and embossing machine.

With this new tool you can easily produce filing boxes, presentation boxes or packaging boxes for safe shipping on your GUNNAR - made to your exact measurements of course. Just click with your mouse on the desired box, enter the right measurements and your machine starts to groove and cut. Your GUNNAR mount cutter becomes a real packaging machine - and without huge additional investments.

With the same tool you can create elegant embossing to embellish your mounts: the new tool head GUNNAR T-1 grooves without destroying your mount board. This enables you to use thousands of ClipArts and Fonts adding value to your mounts.

Tool head change with only one tool (included) in less than 1 minute.

All you need in one box, for your scoring and embossing options.

Elegant embossing to decorate your mats or boxes, endless possibilities by using the GUNNAR font mode.
